

Power Company of Wyoming Wind Energy Project Will Bring Millions Of Dollars To Carbon County

- ✓ **Property taxes*** will be about \$7 million *for every \$1 billion of Fair Market Value* in the project's first full year. Property taxes are paid every year.
 - In first full year: Estimated project cost is \$4 billion – \$6 billion, therefore total property tax payable is **\$28 million – \$42 million**
 - After five years of straight-line depreciation: Property taxes payable *for every \$1 billion of FMV* are about \$5.5 million, or **\$22 million – \$33 million**
 - Over a 20-year economic life: An estimated \$73 million in property taxes will be paid *for every \$1 billion of FMV*, or **\$291 million – \$436 million**
- ✓ **Sales and use taxes** will be paid when the wind turbines and related equipment are delivered to Carbon County, estimated to be **\$234 million**.
- ✓ **Electricity taxes** of \$1 per megawatt-hour will be approximately **\$8.76 million** paid every year.
- ✓ **Permanent jobs:** over **100 high-paying operations & maintenance positions** that will contribute to the local tax base and help bring or keep families in Carbon County.**
- ✓ **Construction jobs:** potential for more than **1,000 in the first year and 800 in subsequent phases**, increasing demand for local hotels/restaurants and other local products and services.**
- ✓ **Impact assistance dollars** will come to the community through the Wyoming Industrial Siting Council process.

* All property tax totals are estimates based on Carbon County Tax District 0100 Mill Levy for 2010.

** Job estimates are based on July 2011 Chokecherry and Sierra Madre Wind Energy Project EIS.
